EVENING BULLETIN

3:30 EDITION

This Day's News Is Printed in Today's Bulletin

An advertisement is to the merchant what sowing seed is to the planter. It may take a little time for the results to become apparent, but they are sure to come. The wise planter is not niggardly with his seed, nor the wise merchant with his advertising.

PRICE 5 CENTS.

SHAW DENIES REPORT OF HIS WAR TALK CITY'S GROWTH SHOWN BY CAR RECEIPTS

INDICT PACKERS' TRUST

JERSEY CITY, N. J., Feb. 25.—Indictments against the officials of the National Packing Company were returned today by the Federal Grand Jury. They are charged with conspiracy to raise the price of food products.

Pinchot Gives His Testimony

WASHINGTON, D. C., Feb. 25.—Gifford Pinchot, former Forester of the United States, was a witness today before the Ballinger investigating committee. While there was a very general interest in the proceedings, nothing of a sensational nature developed.

Appeal Panama Libel Dismissed

WASHINGTON, D. C., Feb. 25.—The Government has appealed the case against the New York World for libel in the Panama scandal. The case against the World was dismissed in the Federal Court of New York.

Millions For Immigration

WASHINGTON, D. C., Feb. 25.—Secretary Nagle has made a report on the immigration service in which he recommends the appropriation of \$2,500,000 for regulating the immigration of the country.

Iron Strikers Start Rioting

SOUTH BETHLEHEM, Pa., Feb. 25.—The iron workers who are out on strike started riots today and a very ugly labor situation prevails.

Sugar

SAN FRANCISCO, Feb. 23.—Sugar: 96 degrees test, 4.30c. Previous quotation, 4.30c.
SAN FRANCISCO, Feb. 24.—Beets: 88 analysis, 13s. 9 1/2-2d; parity, 4.94c. Previous quotation, 13s. 9 3/4-4d.

RAILWAY BILL FAVORED

WASHINGTON, D. C., Feb. 25.—The administration's bill for the control of the railway corporations was favorably reported to the Senate today.

NEW HOME FOR RAVEN

Charles H. Raven, Deputy Collector at the local customs, has let the contract for a fine residence which will adorn a lovely lot on Wyllie street. The new house will be of frame construction, costing at least four thousand dollars to complete. It will be two stories and contain seven rooms.

WAILUA NET PROFIT FOR YEAR WAS \$646,866.13

Manager's Report Shows Prosperity of The Plantation

OFFICERS ARE ELECTED FOR THE ENSUING TERM

Annual Meeting of Stockholders Is Held and Good Financial Condition of Property Is Shown.

At the stockholders meeting of the Wailua Agricultural Company held in the offices of Castle & Cooke this morning, the directors elected were: E. D. Tenney, C. H. Cooke, T. H. Petrie, C. H. Atherton, J. A. McCandless, J. D. McInerney, J. J. Carden.

The officers elected were: E. D. Tenney, president; C. H. Cooke, vice-president; T. H. Petrie, secretary; C. H. Atherton, treasurer; T. Richard Robinson, auditor.

We began the year with a credit of \$161,715.44 with our agents. We have bought during the year: W. A. Co., Ltd. bonds, for cancellation \$6,500.00; Sugar Factors Co., Ltd., stock 25,130.00. We have paid dividends 10% 450,000.00. We had on hand December 31, 1909: Cash 12,516.98; Sinking fund 595.00; Containers for crop 1910 14,423.23; Credit balance with our agents 274,821.17; Net value sugar shipped and ready for shipment, crop of 1910 158,632.02. The total net profit for the year was 646,866.13.

This summary published at the close of Manager Goodale's report tells the story of the year for Wailua plantation.

Mr. Goodale in his review of the various crops shows that the average yield of the 1909 crop was 6.22 tons to the acre. The sucrose was higher, and has been steadily improving for the last three years.

Dealing with the 1910 crop the report says:

We began grinding the crop of 1910 on December 8, 1909, and have taken off to date, February 12th, 1910, 6,825 tons of sugar. The sucrose in cane has been low, averaging only 12.71% to January 31st. The yield of cane per acre of the fields cut to date was 11.15 tons, and of sugar 5.67 tons, taking 9.02 tons of cane to make a ton of sugar.

Tasseling of the crop cane was much lighter than in 1908, and that year there were exceptionally few tassels. The first tassels appear at about the same date each year, but this year they were later and fewer in number than ever before. None of the fields tasseled enough to show at a distance that they were ripe and to be ground for this crop. This is the effect of climate and cannot be controlled by any known system of irrigation or fertilization.

The estimate for the crop is 31,500 tons.

A table is given showing that the Wailua Water Co. delivered to the plantation in three years and nine months ending Dec. 31, 1909, 31,449,850,203 gallons of water.

The dam filled and overflowed for 14 days in March and April, and it is estimated that 1,000,000,000 gallons passed over the spillway.

The average amount of water delivered was 24,375,167 gallons per day for the entire year. The lowest month's delivery was in December, 255,000,000 gallons, and the highest in August, 1,364,000,000 gallons.

We began the year with 470,000,000 gallons in storage and finished the year with 1,160,000,000 gallons. The table shows a uniform conservation and delivery of water for three years. In the heavy rains of March and April, 1909, when the dam overflowed, a large quantity of water ran to waste, but at such times the whole country

Large Increase Shown In Rapid Transit Earnings

GROSS PROFIT OF SYSTEM \$18,131 PER MILE OF ROAD

The annual meeting of the shareholders of the Rapid Transit Company is being held this afternoon in the offices of the president in the Stangenwald building. The report for the year by the president, L. Tenney Peck, and the manager, C. G. Ballentyne, shows a marked increase in the earnings of the company over previous years.

NOT A SHARE SOLD AT TODAY'S SESSION

Stock List Real Curiosity Judged By Price Of Sugar

Stock brokers looked silly this morning after emerging from the Stock Exchange without having reported a single transaction for the session. Even the between boards sales were not numerous and while the prices were represented as being "firm" the quotations did not represent the community as having been especially enthused by the advancing price of raw sugar.

Forty five shares of Oahu sold between boards at 36.75 and the stock sheet shows that 36.50 was bid and 36.75 asked. Consequently one would presume that there must be a lot of Oahu on the market at 36.75 and no one to take it up. Hawaiian Sugar sold yesterday at 53, and there is neither a bid or an asked on the record of the stock exchange. Honokaa sold at 23; and the bid is 22.875 and the asked 23.25.

Pioneer of all the stocks in the market advanced considerably, changing hands at 225, and reported on the list as held at 230. Two hundred Oahu sold at 6.875 and the bid is now 6.75. The bid and asked for Wailua has advanced a peg and there is said to be some selling orders for Wailua but nothing was in evidence in the way of a transaction that could be discerned by the naked eye.

Brewery stock sold at 19 showing that someone had been frightened clean out of sugar stocks by the advance in sugar and hurried to put his money into something else.

Just what will happen tomorrow no one dares to predict. If sugar should go to 4.50 the whole list might break into a roaring slump judged by the effect of the latest increase in the price of sugar.

HAWAIIAN PINEAPPLE COMPANY EXPAND

The Hawaiian Pineapple Company has joined the ranks of the expansionists who have to do with the Greater Honolulu.

The company finds that its present quarters at Iwilei are entirely too small for the rapidly increasing business.

The contract has been let for a cannery, costing in the neighborhood of two thousand dollars which when completed will be one story in height and cover an area of 40 by 60 feet. The building will be erected of galvanized iron and concrete.

The Pineapple Company will also expend four thousand five hundred dollars upon the erection of a large warehouse 60 by 192 feet, which will also be built of galvanized iron.

Shafter and Pearl Harbor, the privilege for which is awaiting the outcome of a bill introduced in Congress by Delegate Kalaianole.

The average gross passenger earnings were \$18,131 per mile of road, as against \$16,793 for 1908 and \$16,252 for 1907. The president pointed out in his report that these figures are clearly indicative of the rapid rate of the growth of population in this city for 1909 as compared with the staid rate of previous years.

Substantial improvement in the plant and service has been undertaken by the company, and the present year will see these betterments in place.

FLORAL PARADE

Subscribers to the Floral Parade fund will please forward their remittances as soon as possible to H. O. Dillingham at the S. F. 124-25, Higham & Co's office.

TO WORK FOR UNIFORM LAWS

Governor Frear Will Appoint Hawaii Commission

Governor Frear has decided to appoint three Commissioners to represent Hawaii at the National Conference of Commissioners on the Uniformity of State Laws, a meeting of which is held annually, and he has decided upon David Withington as one member of the commission.

In speaking of the purpose of the conference that Hawaii had been urged a number of times to have representatives on the body and that he has decided to name the remaining two commissioners in the near future.

The purpose of the conference, said the Governor, "is to insure the enactment of uniform legislations affecting the vital interests of the people. Our legislature of 1907 passed a negotiable instrument act which has now been passed in substantially the same form by about forty of the State and Territorial legislatures. The Conference is in close touch with the National Bar Association and reports to it with its recommendations as the methods and bills needed to accomplish the desired end."

Leleio is a frequent visitor at the police station, and not always as a witness either. The police regard the affair as an ordinary squabble although a revolver did play a part in the show. The gun was of a very cheap make, and it would be good work to hit an elephant at twenty feet with it.

SILVA AND GOMES MAY MEET AGAIN

This morning at the police court Tommy Silva was sentenced to three months at Asch's Hotel. Tommy is the gentleman who got mixed up in a fight with Jacintho Gomes a couple of days ago. The scrap spread over a large area and finally ended in Silva running away. Gomes pursued Silva with the fixed determination of cutting his throat if he once laid hands on him.

BAND TONIGHT AT MOANA HOTEL

The Royal Hawaiian Band will give a concert at the Moana Hotel tonight between seven-thirty and nine-thirty o'clock, to which the public is invited.

WAREHOUSE FOR IRON WORKS

A new warehouse for the Honolulu Iron Works will soon be completed on the property of the company near the corner of King and Marine streets, which will cost in the neighborhood of two thousand dollars. The building will cover an area of 48 by 40 feet, and galvanized iron will be used in its construction.

BORN

NAONE.—In Wailuku, Maui, Feb. 19, 1910, to Mr. and Mrs. Artemas B. Naone, a daughter.

ent year will see these betterments in place. These include the construction of a second track on King street, and also the suburban service, especially to Kaimuki.

The former board of directors was reelected this afternoon, together with G. P. Castle. The officers of the company for 1910 are as follows: L. Tenney Peck, president; L. A. Thurston, first vice-president; G. P. Castle, second vice-president; C. H. Atherton, treasurer; A. L. Castle, secretary; C. G. Ballentyne, manager; W. M. Giffard, auditor; W. R. Castle, G. N. Wilcox, Richard Ivers, directors.

TRIAL OF STRENGTH ENDS IN GUN PLAY

Winner Of "Uma" Test Is Much Scared Of Loser

There was an exciting time down on Nuuanu street this morning about half past ten o'clock, when a man named Kahalo pulled out a cheap revolver and fired a shot in the air. He claims that he used the gun to scare a friend of his who had threatened him with bodily injury.

The affair started over a trial of strength at the ancient sport of "Uma." Kahalo was too strong for Leleio and the latter became frightened, and running to his house grabbed a revolver and fired in the air hoping to keep Leleio away from his premises.

Then a neighbor who saw the whole performance, informed the police of the matter and an officer was dispatched to investigate the affair. Kahalo had retired to rest and everything was quiet when the policeman arrived on the scene and as Leleio did not wish to swear out a warrant for Kahalo's arrest, nothing further was done in the matter.

Leleio is a frequent visitor at the police station, and not always as a witness either. The police regard the affair as an ordinary squabble although a revolver did play a part in the show. The gun was of a very cheap make, and it would be good work to hit an elephant at twenty feet with it.

BAND TONIGHT AT MOANA HOTEL

The Royal Hawaiian Band will give a concert at the Moana Hotel tonight between seven-thirty and nine-thirty o'clock, to which the public is invited.

WAREHOUSE FOR IRON WORKS

A new warehouse for the Honolulu Iron Works will soon be completed on the property of the company near the corner of King and Marine streets, which will cost in the neighborhood of two thousand dollars. The building will cover an area of 48 by 40 feet, and galvanized iron will be used in its construction.

JAPAN IS SEEKING MORE BATTLE-SHIPS

Commander Hisano Of Nippon Navy Is Here

TENYO MARU BRINGS FEW PASSENGERS

Two Thousand Tons Merchandise—Russians and Filipinos for Hawaiian Plantations.

Commander T. Hisano, a high ranking official in the Imperial Japanese Navy, is traveling to the United States and to England as a passenger by the Toyo Kisen Kaisha liner Tenyo Maru.

It is understood that the mission of the Japanese naval official is an important one, in that he has been commissioned to enter into contracts for the construction of additional battleships of the Dreadnought class.

Commander Hisano will visit the Crampe and also the British shipyards before completing the business at hand and returning to Dai Nippon.

The Tenyo Maru brought few cabin passengers. However, included among the thirty-seven who traveled first-class were several persons of more or less prominence in diplomatic and business affairs in the Far East.

Consul-General Leo Bergholz, stationed at Canton, China, is on his way to Washington, where he will hold an important conference with State Department officials.

A. Burlingame Johnson is a successful lumberman from the Philippines. Mr. Johnson is on his way to the States to purchase saw mill machinery for the newly-opened concessions in Mindoro, which the Insular Lumber Company, of which he is at the head, has taken up in the southern islands.

Richard Monahan is a rising young business man who for the past five years has been a prominent figure in the development of Mindanao, Philippine Islands.

Stanley Clark will remain here, and he accompanies one hundred and seven Russian immigrants who were secured through the efforts of A. L. C. Atkinson and J. Perelstrous. The Russians arrived here in first-class condition. They lined the rails of the steamer as she came alongside the Hackfeld wharf this afternoon, and evinced marked curiosity concerning their new home.

The Tenyo Maru also brings seventy Filipinos for the Hawaiian sugar plantations. These men were quickly landed and as they do not have to go through the immigration quiz they soon found their way to the planters' recruiting office.

The Honolulu cargo includes 3,267 packages of general merchandise, 90 bales matting, 10,082 sacks rice, 1045 sacks beans, 79 packages curries, 3800 tubs of shoyu and 574 tubs sake.

The Tenyo Maru will sail for San Francisco tomorrow morning.

PASSENGERS ARRIVED

Per T. K. B. S. Tenyo Maru, from Hongkong and Japan ports—Through: Consul General Leo Bergholz, Mrs. Mary Bergholz, Mr. Stanley Clarke, Miss H. A. Davis, Mr. K. Doi, Mr. K. Fukumoto, Mr. C. Garrard, Mr. C. A. Owens, Mr. Morris Gross, Mrs. Morris Gross, Mr. J. Guggenheim, Commander T. Hisano, J. J. N. Dr. W. K. Jeffreys, Mrs. Jeffreys and 3 children, Mr. A. Burlingame Johnson, Mr. Geo. Kroto, Mr. Richard J. Monahan, Mrs. T. Oishi, Mr. M. Otowa, Mr. S. Stern, Mr. B. E. Strauss, Mrs. K. Sudzuki, Mrs. T. Tanaka, Mr. C. W. Ure, Mrs. Chiyu Wakamatsu, Mr. K. Yamazaki and servant.

The correct scientific way of referring to that comet is "Alpha 1910." Halley's may be "Omega."—Lowell Courier-Citizen.

SHAW DENIES IT

PHILADELPHIA, Feb. 25.—Leslie Shaw, former Secretary of the Treasury, denied today that he predicted war with Japan during the speech made yesterday. He says that he simply stated the facts of the situation in their sequence, and showed that the policy of the country in regard to the merchant marine was inviting a conflict.

Japan Has Much Cash On Hand

(Special Bulletin Cable.) TOKIO, Feb. 25.—The hundred millions yen domestic loan asked for by the Japanese Government for the purpose of naval construction and internal improvements has been oversubscribed.

Delai Lama Loses Job

PEKING, China, Feb. 25.—The Chinese Government has deposed the Delai Lama, the recognized head of Tibet.

Tibet is under the Chinese suzerainty, and is bounded on the north by East Turkestan, on the east by China proper, on the south by British India, Bhutan and Nepal, and on the west by the Indian State of Kashmir.

The priesthood is extremely numerous, and the government is a theocracy. At its head is the Grand Lama, or Dalai Lama, who resides at Lhasa, the capital, and who claims to be the head of the Buddhist world.

This priest government has enforced a strict exclusion of non-Buddhist foreigners, particularly from the capital. Few foreigners have ever entered the forbidden city, and it was not until the Dalai Lama broke faith with the Government of India, by closing all the caravan routes and passes into Tibet, that a British expedition under Colonel Younghusband was sent to administer punishment to these treaty-breakers.

A Chinese resident is permanently stationed at Lhasa. Russian diplomatic influence had gained such a foothold in Tibet, previous to the British expeditions, that the Government of India, on March 31, sent an expedition against the Thibetans. At Gurnu, where the Thibetans had built a well across the pass to oppose the advance, 1500 of their soldiers were cut down by the Indian troops.

The expedition entered Lhasa, and after long negotiations Colonel Younghusband concluded a treaty. It appears that this treaty has been broken by the Dalai Lama, and the Chinese Government, fearing that drastic measures will again be taken to enforce the British rights, have sent a body of Chinese troops to compel the Dalai Lama to recognize the treaty, with the result that the Dalai Lama fled, and has been deposed.
